SUMMARY

I am a Frontend Developer with a strong foundation in mobile and web development, specializing in React, React Native, and ASP.NET. I have experience building mobile banking apps, eCommerce platforms, and HRM systems, focusing on creating user-friendly, efficient solutions. I collaborate closely with designers and backend teams to ensure high-quality code and seamless integrations. I am passionate about tackling new challenges, driving innovation, and continuously expanding my skills in both development and system design.

EXPERIENCE

Frontend Developer

ACB

September 2024 - Present

- Contributed to the development of mobile banking applications for ACB using React Native, focusing on features that serve users and meet banking operations requirements.
- Assisted in optimizing the mobile app's performance to ensure it runs smoothly across various devices and operating systems.
- Gained a strong understanding of banking operations, ensuring compliance with security standards and regulatory requirements.

Frontend Developer

Estuary JSC

August 2023 - September 2024

- Estuary JSC is a software outsourcing company that specializes in HRM systems, sales management tools, and small game landing pages.
- Developed and implemented new features for client projects, ensuring they met specific requirements.
- Conducted and participated in code reviews to maintain high standards, focusing on clean and reusable code.
- Collaborated closely with UX/UI designers, backend developers, and business analysts to achieve seamless integration of interface components.

Frontend Developer

UEH University

December 2022 - November 2024

- Developed the UEH Internship to manage internship processes for over 10,000 UEH students annually.
- Gained practical experience in handling large user databases, improved teamwork and communication skills.
- Provided maintenance and support for the UEH Internship and UEH KTX (student dormitory management) systems, ensuring seamless functionality and performance.

PROJECTS

Chime - Chrome Extension - Personal Project

November 2024

- A Chrome extension that provides time-based notifications with sound alerts, helping users remember to take breaks, stay hydrated, and manage their time effectively.
- Customizable notification intervals to suit user preferences and work routines.
- GitHub Repository: [Chime Extension](#).

MiFarm Platform - Personal Project

July 2023 - October 2023

- Developed an eCommerce mobile app and web platform for selling fresh vegetables and agricultural products, with features including user registration, product catalog, and shopping cart functionality.
- Technologies: React Native (app), ReactJS (web), Tailwind, Redux, TypeScript, Express (Node.js backend), MongoDB, RESTful API.
- Demo: [Demo App Video](#), [MiFarm Website](#) - GitHub Repositories: [MiFarm App](#), [MiFarm Web](#).

Hide Scrollbar Chrome Extension - Personal Project

March 2023

- Developed a Chrome extension that lets users toggle scrollbar visibility on web pages.
- Features: Easily enable or disable scrollbars through a right-click context menu. The extension integrates smoothly with web pages during page load via content scripts.
- GitHub Repository: [Hide Scrollbar Extension](#).

EDUCATION

Graduated

UEH University

September 2020 - March 2024

- Bachelor of Science in **Software Technology** - **GPA:** 8.65/10
- Achievements: Awarded scholarships in Term 4 and Term 5 for being in the top 5% of students.
- Relevant Coursework: Algorithms; Database; System Analysis and Design; Object-Oriented Programming; Theme Design; Web Application Development.

SKILLS

- **Languages, Frameworks and Libraries:** JavaScript, TypeScript, C#, PHP, ReactJS, React Native, React Query, Redux, NodeJS, ASP.NET, Bootstrap, Tailwind, Ant Design.
- **Design:** Figma, Canva, Photoshop.
- **English:** Intermediate - TOEIC 625.
