## SUMMARY

Frontend Developer with expertise in React and React Native, passionate about building high-performance applications. Experience optimizing UI/UX and data management systems at ACB. Committed to continuous learning and delivering scalable solutions that enhance user experience and business efficiency.

## EXPERIENCE

Frontend Developer Intern	Asia Commercial Bank (ACB)	September 2024 - Present
<ul style="list-style-type: none"><li>• Developed and optimized mobile banking applications using React Native, improving performance and enhancing the user experience across different devices.</li><li>• Refined back-office data management systems, specifically in managing data change history, which allowed for accurate tracking, reporting, and the ability to revert to previous versions of data.</li><li>• Automated documentation generation for ACB’s React Native components, reducing manual documentation efforts by 30% and standardizing component structure through an automated creation process.</li></ul>		
Frontend Developer	Estuary JSC	August 2023 - September 2024
<ul style="list-style-type: none"><li>• Delivered key features for HRM systems and sales tools, driving client satisfaction and ensuring precise alignment with business needs.</li><li>• Conducted and participated in code reviews to maintain high standards, focusing on clean and reusable code.</li><li>• Collaborated closely with designers, backend developers, and business analysts to achieve seamless integration of interface components.</li></ul>		
Frontend Developer	UEH University	December 2022 - November 2024
<ul style="list-style-type: none"><li>• Developed the UEH Internship to manage internship processes for 10,000+ UEH students annually. Gained practical experience in handling large user databases.</li><li>• Ensured optimal performance and reliability of key systems, including UEH Internship and UEH KTX (student dormitory management), through proactive maintenance and troubleshooting.</li></ul>		

## PROJECTS

### API Pocket - Personal Project

February 2025

- Developed API Pocket, a tool that allows users to quickly create APIs without needing to set up a backend or database. Features include OAuth Login, Schema Management, Data Management, and automatically generated API Documentation.
- Technologies: Nextjs, Tailwind, Zustand, Ant Design, TypeScript, MongoDB, RESTful API.
- [API Pocket Live Demo](#) - [GitHub Repositories](#)

### Chime - Chrome Extension - Personal Project

November 2024

- A tool delivering time-based notifications with sound alerts to ensure users take breaks, stay hydrated, and stay on track. Fully customizable intervals to optimize productivity and align with individual work routines.
- [GitHub Repository](#)

### MiFarm Platform - Personal Project

July 2023 - October 2023

- Developed an eCommerce mobile app and web platform for selling fresh vegetables and agricultural products, with features including user registration, product catalog, and shopping cart functionality.
- Technologies: React Native (app), ReactJS (web), Tailwind, Redux, TypeScript, Express (Node.js), MongoDB.
- Demo: [Demo App Video](#), [MiFarm Website](#) - GitHub Repositories: [MiFarm App](#), [MiFarm Web](#).

## EDUCATION

Graduated

UEH University

September 2020 - March 2024

- Bachelor of Science in **Software Technology** - GPA: 8.65/10
- Achievements: Awarded scholarships in Term 4 and Term 5 for being in the top 5% of students.
- Relevant Coursework: Algorithms; Database; System Analysis and Design; Object-Oriented Programming; Theme Design; Web Application Development.

## SKILLS

- **Languages & Frameworks:** JavaScript, TypeScript, ReactJS, React Native, Next.js, Redux, NodeJS, C#, ASP.NET.
- **Tools:** Git, MongoDB, Tailwind, Ant Design, Bootstrap, Docusaurus, React Query, Figma.
- **Languages:** English (Intermediate – TOEIC 625).
